FORMAL PRODUCT QUALITY COMPLAINT

Ref: MBH/QA/2026/0341

Date: 23 July 2026

To: Head - Quality Assurance
Zenith Pharmaceuticals Limited
Unit II, Baddi, Himachal Pradesh

**Subject: Seal integrity failure observed in Pantoprazole Sodium
Delayed-Release Tablets 40 mg, Batch ZPL-2491-0088**

Dear Sir/Madam,

We wish to formally lodge a product quality complaint in respect of the consignment referenced below, received at our Nashik warehouse on 18 July 2026 under invoice ZPL/INV/26/11482.

Product name : Pantoprazole Sodium Delayed-Release Tablets
Strength / Grade : 40 mg
Batch / Lot number : ZPL-2491-0088
Manufacturing date : 02/2026
Expiry date : 01/2028
Quantity affected : 24 blister strips
Complaint category : Packaging defect - seal integrity

Description of the defect:

On receipt inspection our warehouse QA officer observed that the blister seals on 24 strips across four cartons had lifted along the lidding foil, leaving several tablet pockets open to the atmosphere. In eleven of these pockets the tablets show surface mottling and a change of colour from off-white to pale yellow, consistent with moisture ingress.

The affected cartons have been quarantined in our bonded QA cage and have not been released to any retail customer. The balance of the batch (342 strips) remains on hold pending your instruction.

We request a written investigation report and confirmation of the disposition of the held stock within ten working days, in accordance with clause 8.3 of our distribution agreement.

Yours faithfully,

Vikram Rathore
